## PROJECTS

campusXchange : E-commerce cum social media website for buying & selling

A website solely created for the purpose of college students to post and sell their products which are no longer required by them. such as books and equipment for other fellow students. The goal of the project was to ensure that students connect among themselves and buy the products at lower prices rather than visiting stores.

**Tech Stack: React JS, JavaScript, HTML, Tailwind CSS, MongoDB.**

foodOpedia- A beginner friendly food recipe website

Developed a user friendly food recipe website focusing solely on front end development. This website fetches and provides popular recipes using API according to the search results.

**Tech Stack: React JS, JavaScript, HTML, Tailwind CSS**
